Visual Studio Code ✓

## PROFILE

A Full-Stack Software Developer, who received training from TrueCoders where I gained knowledge in coding languages such as C#, SQL, HTML, CSS, JavaScript, and ASP.Net.

## PROJECTS

### ASI (Aviation Search Information)

ASI takes information from an aviation API and allows the user to search flight info, airline data and airport info.

### Best Buy DataBase

The BestBuy database simulates an inventory management system along with employee sales records by CRUD operations through a console user interface via ASP.NET and databases via MySQL.

### Taco Parser Project

A C# console app that uses information from an CSV file and provides the user with the 2 Taco Bells in Alabama with the greatest distance from each other.

### Ron Swanson and Kayne West API

A console application that calls both the Ron Swanson API and the Kayne West API. Using both API, Ron Swanson and Kanye West have a conversation that prints to the console.
